

Information Security Exercise

Hans Georg Schaathun
Høgskolen i Ålesund

Week 3 Autumn 2011

Task Prioritise, and discuss the relevance of, the different COBIT Information Criteria with respect to typical companies in a given set of industries.

Objective Your goal is to become familiar with the COBIT Information Criteria and understand their relevance.

Submission

1. The submission should be in the form of a single PDF document.
2. Name and email address must display clearly on the first page.
3. *Deadline* Monday 12 September 2011 by 6am in Fronter.

Contents Consider the following businesses:

- A bank
- An online retailer
- A dentist's surgery

For each business, list the COBIT Information Criteria in order of importance, and give reasons for your answers.

A good way to structure report, is to write one section for each business. Then each section goes through each of the Information Criteria in order of importance, explaining how it applies in that industry and justifying its priority.

Good luck
